369 TO 75 VOTE IN FAVOR OF THE PROJECT AT ELECTION

A LIGHT VOTE POLLED

Amount Totals $150,000 For Water System in Last 5 Years—Harper to Make Report Tuesday Night.

The $50,000 water bond issue for the improvement of the present water system of the city of Maryville carried by an overwhelming majority at the special election yesterday, the total vote of the four wards of the city showing 369 for the issue with only 75 against.

The election yesterday was one of the quietest that has ever been held in this city, and the poll of votes was unusually light in all wards. The strongest opposition to the bond issue was in the Fourth ward where the vote stood 91 for the bonds and 42 against. In the Third ward the vote was 126 for and 12 against, in the First, 66 for and 14 against, and in the Second 86 for and 7 against.

The voting of the $50,000 yesterday for the improvement of the water plant totals $150,000 which has been voted for the water system in this city in the past five years. At the time the present plant was taken over to city ownership, $100,000 was voted by the citizens for that purpose.

The matter of selling the bonds, and active work on the improvement of the water system will be taken up at the meeting of the City Council next Tuesday night. At that time E. E. Harper of Kansas City, the engineer who designed the improvements to be made on the plant, will make a report and will suggest the first steps that should be taken in the plan of improvement.

I wish to express my smypathy on account of the death of Private Alvin Dunn, Company "I", 353d Infantry I feel that you must find a certain pride to his soldier death and in the knowledge that he fought his good fight in the just cause of our country. The triumph of that cause justifies his death, though it cannot assuage your grief.

It is distressing to lose one who is near and dear, but it may be some comfort to know that his services were valued by his commander and that he did well his part in the Great War.

Reports on Game Birds and Animals.

To gather up-to-date and reliable information on the present condition of game birds and animals in the Western States, as compared with previous years, the United States Department of Agriculture, through its Bureau of Biological Survey, has sent blanks to thousands of hunters, and has asked that they be filled out with as complete and definite information as possible. Recently 1,000 of these blanks were sent to a selected list of hunters in all counties of Washington state. The information which will be obtained from the replies, together with that supplied by the field representatives of the bureau, will give reliable information on the game-bird and animal population of that state. The bureau has already issued reports regarding mammals and birds, including the game species, of Wyoming, New Mexico and Colorado. Information for reports is now being collected for the states of Montana, Arizona, Wisconsin and Washington.

LAY WOUNDED AT VERDUN 13 HOURS

C. A. KINDER HOME ON 15 DAYS' SICK LEAVE

WAS GASSED AT ARGONNE

In Famous 1st Regulars—First Nodaway Boy Wounded—22 Months in France.

Another one of Maryville's heroes arrived in town today in the person of Pvt. C. A. Kinder, Co., I Ammunition Train, First Regular Army Division, from Camp Merrit, N. J.

Pvt. Kinder has the distinction of being one of the firt boys in Maryville to enlist in the army, joining the colors April 6, 1917, the day of the declaration of the war. So far as is known he is the first home boy to be wounded in action, receiving a severe shrapnel wound in te head on April 3, 1918 at the Verdun sector. When wounded at that time he lay on the battlefield from 8 o'clock in the evening until 9 o'clock the next morning before assistance came when he was removed to a hospital back of the lines where he was treated for three months before he was able again to go back into the line of battle.

Three days before the Armistice was signed in the battle of the Argonne Pvt. Kinder was severely gassed from which he has not yet recovered, being on a fifteen day sick leave from his post at Camp Merritt at the present time.

Kinder went into the battle line for the first time November 16, 1917 with the First Regular Army Division which is credited with being among the very first American army units to engage in battle with the Huns. The record of the veterans of the First Regulars is one of the most notable and inspiring of any army division which fought on the battlefields of France. It bore the brunt of attack in many engagements and suffered heavy casualties.

Twenty-two months duty overseas is Kinder's record and nearly wenty-eight month's service in the regular army. He will not receive his discharge from the service until April 6, 1920.

Pvt. Kinder made a statement to the reporter who interviewed him this morning in which he said that as soon as he is discharged from the army he is coming back to Maryville to live and to engage again in his trade of painting and paper hanging and would appreciate all patronage that his many friends will give him. About the first thing he did after stepping off the train here was to purchase a house and lot on South Market St., from J. B. Bookman and he is looking forward longingly to the day when he may return to his home town and settle down again after three years hard service in the army on many battlefields and through many experiences.

Paris, June 27.—President Wilson this afternoon held his last conference with the American newspaper men and told them that he expected the treaty to be signed tomorrow afternoon in time for him to leave Paris tomorrow night for Brest, sailing Sunday. The president plans to sail immediately after the signing, which will probably be Sunday noon. Landing in New York a week later, it is expected that he will request a joint session of the senate and house Monday when he will address the members, and at the same time deliver the treaty to the senate committe of Foreign Relations. SPENT A FORTUNE ON SELF AND WIFE

Before Taking Tanlac Waco Man Couldn't Lift Foot Three Inches From Ground.

"I spent a small fortune on medicines for myself and wife before we got hold of Tanlac, which soon put an end to our troubles," said J. F. Bryan, of 713 South Seventh street, Waco, Tex.

"For six months," he continued, "I was so cirppled up with rheumatism that I couldn't life my left foot three inches from the ground. My arms and shoulders sometimes pained me as if they were being torn with red hot pincers, and the muscles of my left leg felt like they were tied into knots and every time I moved I would almost cry out in pain. My wife, too, suffered terribly with a misery in her stomach for fifteen years and could get no relief, no matter what she did.

"Since taking Tanlac I can get about and do my work as well as I ever could there is not a pain or ache in my body and I simply feel fine all over. My wife took Tanlac at the same time I did, and her troubles are gone and she is gaining in weight and strength every day. We both feel so happy over the benefits we have received from Tanlac that we can hardly stop talking about it."

"Tanlac is sold in Maryville by Koch Pharmacy, in Conception Junction by A. M. Colly, in Pickering by H. M. Lincoln, in Burlington Junction by Carter Pharmacy, in Barnard by Bear Drug Co., in Elmo by King Drug Co., in Clearmont by Dr. W. H. Wiley, in Ravenwood by C. A. Shunk, and in Arkoe by Rufus R. BEGIN WHEAT HARVEST.

Most Fields Promise a Good Yield of Golden Grain.

The harvesting of wheat is underway on a few farms and by the first of next week the binders will be running from early morning until late in the evening.

While the continued wet weather damaged the grain some, most farmers report that they will have a pretty good crop. They say that one noticeable feature this year is the fact that the poorer land has better developed grain than the more fertile.

We hope the farmers get a bumper" yiel. With wheat selling at better than $2 per, it will mean a great deal to them in the way of finances, especially since there is such a large acreage in wheat this year.—Burlington Junction Post.

In Maryville, Mizoo.

In Maryville, old Maryville,
A town in old Miszoo,
Where most the boys went o'er the top
But some turned slackers true.
Some did their bit by plowing corn
Some in the city, too
While some wished they had not been born
Where Old Glory they could view.
Now in this town, there is a class
That have not much to do
They ride around and burn the gas
And obstruct Old Nature's view.
And if by chance a stranger pass
Through the town by night and gas
Or a fine he'll have to pay.
And those that abide in Maryville
And have a car to steer
Sure burn the gas, and the town they fill
With noise, and speed and fear.
Now if they would enforce the law
In regard to speed and noise
Then the people could a full breath draw
With great relief and joy.
There is a law to drive a car
You've got to be sixteen
But in this town, there is no bar
And that fact is plainly seen.
It's safety first, all o'er the land
Why not in Nodaway?
Just place on noise and speed a ban
And give pedestrians the right of way.

Now Is a Good Time To Drive Out Catarrh

The Trouble Is In the Blood.

Summer catarrh, with its nauseous discharge, stuffed up glands, difficult breathing, and summer colds, is bad enough, but the worst of it is yet to come if you neglect to check the growth that is forming to attack you with ten-fold greater power during the winter.

That's why it is so important to treat catarrhs and other blood disorders with S. S. S. during warm weather, and thus free the system from all impurities.

It is now an established fact that catarrh is in the blood and that lotions and salves do not give relief. The experience of others has proven that S. S. S. strikes at the very root of the trouble and eliminates it. Waste no time in this matter, for it is of the utmost importance. Write to our Medical Advisor about your case. Regarless of the threatening weather, the basket dinner in honor of Carl Dunn who served in the world war in France in the 32d division was probably one of the largest ever held in the Barnard community. The dinner was held last Sunday in the grove of Mr. and Mrs. S. S. Dunn. There were from 300 to 400 in attendance at the dinner and forty-eight automobiels were counted. The Barnard Band gave a number of selections. The grounds were decorated with flags. The dining table was eighty feet long. After dinner a fine speech was made by Rev. "Wedding Chimes."

"What is there in the vale of life
Half so delightful as a wife;
When friendship, love and peace combine
To stamp the marriage bond divine?"

"Mr. and Mrs. A. J. Cox request the honor of your presence at the marriage of their daughter

Lura Charlotte

to

Dr. Francisco L. Lisbona

Wednesday, June 25, 1919, at high noon."

Such was the invitation that brought together about 50 friends and relatives to witness the marriage ceremony.

The home was beautifully decorated in pink and white. The bride was dressed in white georgette crepe with bead trimming made over white satin, and she never appeared to better advantage. She carried white killarney roses.

Mr. Joseph Sanchez of Kansas City, a half brother of the groom, acted as best man and was accompanied by Miss Hazel Cox, Maryville, Mo., a cousin of the bride who carried pink killarney roses. The wedding march was played by the bride's aunt, Miss Nettie Cox of Maryville, Mo.

The wedding ring cushioned in a rose was carried by the bride's sister, Nannie Beatrice Cox. At the appointed hour the bridal party headed by Elder S. D. Harlan, officiating minister, moved to the parlor where the contracting parties took their places and the solemn vows that made them man and wife were taken.

The love and esteem in which this worthy couple is held was shown by the numerous and beautiful presents.

The bride is the eldest daughter of Mr. and Mrs. Cox. She is a member of the Christian church, a good musician and an accomplished reader. She was born in Nodaway county but some years ago moved with her parents to Maitland where she received her schooling.

Dr. Lisbona is a dentist of the home city but a native of the Philippine Islands. He attended dental college in Kansas City. He is a fine Christian gentleman and has made a success in his profession.

The newly weds will take a two weeks' trip to Kansas City after which they will make their home in Maitland.—Sent in.

WEED PATCH IS FAMOUS, THO' RATHER UNWELCOME.

Pittsburg, June 26.—"Please send me a few suggestions on how to rid my garden of a patch of 'Star of Bethelehem.'" wrote Dr. George W. Ely to the Bureau of Plant Industry in Washington.

"A few suggestions?" said Dr. A. A. Hansen, the Government expert, after a hurried trip here. "We would like a few suggestions ourselves." And then he explained that the "Star of Bethelehem" weed is an exceedingly rare thing and there are only two or three plots of it in the whole country. It is an exceedingly mischievous pest and nothing so far known to man can divorce it from the soil when once it gets a hold.

And Dr. Ely's weed patch, therefore, becomes famous.

CLASS POEM.

Tessie M. Degan.

Our class is very,very smart,
We say it with tranquility,
We pride ourselves most of all
Upon our versatility.

For some of us are musical—
Can sing to you and play,
Will show you their ability
By their parts today.

And some of us are studious,
And some of us are not—
Some of us are changeable,
And some of us are "sot."

We know that four of us can teach—
They did in Demonstration School,
And even under supervision
Kept very sweet and cool.

Now some of us are pretty,
And some are merely gay,
While some of us are noted
By the things we say.

And so we are writing up our poem
'Twas a responsibility
To show this class in all its sheen
Of wondrous versatility.

No single kind of rhyme or verse
Was half enough suggestive;
No theme developed as a whole
Could be enough expressive.

So we have chosen many kinds
Of verses as a symbol
Of all our wits and crafts and skill
And artistry so nimble.

You'll find herein a verse that rhymes
We meant to write it so.
Did not Will Shakespeare use prose too
Sometimes, to make the action go?

The subjects that we write about
Happened all this year,
This is the history of the smartest class
That ever studied here.

Now you can't please all and everyone
—Of that we are quite certain.
But laugh a little now and then,
Or else our feelings will be hurtin.'
—Green and White Courier.

Lice Increase Cost of Making Pork.

Lice add a cent a pound to the cost of producing pork. This has been found in tests just completed at the experiment farm of the United States Department of Agriculture at Beltsville, Md. Twenty-four lousy hogs were secured and divided into two lots as nearly equal as to quality of animals as possible. The two lots were managed and fed the same way with the exception that one lot was treated to prevent lice. The animals were weighed at regular intervals and at the end of the fattening period it was found that the hogs infested with lice cost a cent a pound more to fatten than those which were free of the troublesome pest. The officials of the department who had charge of this experiment give an interesting side light in connection with securing the lousy animals. They communicated with some of the department's field men, asking them to locate lousy hogs. It was some time before a reply was received to this surprising order. After the lousy hogs were purchased the owner learned why, and he immediately built a dipping vat and began to treat the animals to prevent lice.

WILL NOT RESTORE CAPITAL PUNISHMENT

Governor Gardner Will Take No Action on matter at Extra Session of Legislature.

St. Louis, June 27.—Arthur Stoehr, president of the Tenth Ward Improvement Association here has received a letter from Governor Gardner, in which the governor declined to consider the restoration of capital punishment at the extra session of the legislature called for July 2 to ratify the federal suffrage amendment.

The Tenth Ward Improvement Association demanded the restoration of the death penalty in a resolution adopted Sunday, June 15. Stoehr wired the governor urging a supplementary call to include a capital punishment.

The governor's letter says in part:

"The last legislature considered capital punishment and refused to restore it. If it should be brought up before the same body again it may take the same action. It would also mean that they would be here for an indefinite period.

"One member of the legislature has already submitted to me the information contained on the inclosed memorandum to show how he feels about it."

The information referred to, it is learned, was collect by Representative Whitaker of Hickory county, and author of the anti-hanging law the repeal of which is now sought.

HAVE BEEN AT IT FOR FORTY YEARS

The following copied from the Nodaway Democrat of Thursday's June 26, 1879, issue tells of fighting in Mexico forty years ago in the days of Diaz. The article comments on the experience of the revolutionary leader. The question arises have they ever quit fighting the government in Mexico?

"General Negrete, the leader of the revolutionary movement against Diaz, has had some experience in the business he has taken in hand. From 1861 to 1861 to 1867 he was one of the most efficient supporters of Juarez. In the latter years he conspired against the president but was unsuccessful. He was amnestied by Ledro in 1872, and afterward helped to drive Ledro out of the country. He is now in the field against Diaz, and it is said he will have the co-operation of Generals Trevino and Navanjo."

URGE SERVICE MEN TO KEEP UP INSURANCE.

St. Louis, June 27.—Soldiers, Sailors and marines are urged to keep up their insurance.

"The newspapers of the country have been the most potent factor in the success of government insurance for men in the service," according to J. K. Voshell, president of the National Association of Life Underwriters, who spoke before the Life Underwriters of St. Louis here.

"No private company," Voshell says, tablished by the government to take care of the men who fought her battles."

FAIR BATHERS MAY NOW WEAR THE KELLERMANS.

Wrightsville, Ga., June 27.—Less attention will be paid to the fair bathers here this season by members of the beach board of aldermen. Hose will not be regarded as requisite to a complete bathing costume and their absence will not be frowned upon by the governing authorities. Annette Kellermans will likely be the rage and extreme cuts will have to be made before cognizance is taken by the authorities. The consensus of official opinion is that Wrightsville got a lot of ridiculous advertising last year by its prudish rules.

TOWN JAILS BEING SOLD.

Altamont, Mo., June 27.—This little town, several years ago, in anticipation of national prohibition, turned its calaboose into a cow stable. Now reports are coming in here that towns nearby are selling their town jails. The city dads here sit back and laugh at their neighbors, who several years ago laughed at Altamont.

GOVERNMENT BUYS SCOTT FIELD.

St. Louis, June 27.—The government has purchased Scott Field, Bellville, Ill., which has been an aviation camp since the United States entered the war. The formal transfer of the ground to the government was made when Lieut. Holland M. Cassidy of the aero service, paid the owners $119,283.

TWO SETS OF TRIPLETS IN LESS THAN TWO YEARS.

Leisenring, Pa., June 27.—Mr. and Mrs. Joseph Senyak, married less than two years, have six children—two sets of triplets. The combinations in both cases were the same, two boys and one girl. Of the last set, the boys each weighed five pounds and the girl five and a half pounds.

An Iceless Cooler for Porkers.

Put the hogs in the "cooler" during the hot days—not as punishment, but to keep the heat from reducing daily gains in pork.

Home demonstration agents of the United State Department of Agriculture and the state colleges have been demonstrating the iceless refrigerator, and these handy coolers are becoming very popular. The swine-extension man in Mississippi, who is working in co-operation with the Federal department, is planning to put into practice the same principle used in the iceless refrigerator to keep hogs cool in summer. The iceless refrigerator is made by inclosing a frame in canton flannel, burlap, or duck. A pan of water is placed on top and wicks are extended from the water over the side of the pan and down the sides of the frame. The evaporation of the moisture in the wicks keeps the refrigerator cool. In applying this principle in the hog lot a frame will be built to provide shade for the hogs and large burlap wicks will extend down the sides from containers which are placed on top and are filled with water. It is expected that the evaporation of the water will keep the hogs cool and thus enable them to make more economical gains during the summer months.

$50,000 WATER BONDS CARRIED

369 TO 75 VOTE IN FAVOR OF THE PROJECT AT ELECTION

A LIGHT VOTE POLLED

Amount Totals $150,000 For Water System in Last 5 Years—Harper to Make Report Tuesday Night.

The $50,000 water bond issue for the improvement of the present water system of the city of Maryville carried by an overwhelming majority at the special election yesterday, the total vote of the four wards of the city showing 369 for the issue with only 75 against.

The election yesterday was one of the quietest that has ever been held in this city, and the poll of votes was unusually light in all wards. The strongest opposition to the bond issue was in the Fourth ward where the vote stood 91 for the bonds and 42 against. In the Third ward the vote was 126 for and 12 against, in the First, 66 for and 14 against, and in the Second 86 for and 7 against.

The voting of the $50,000 yesterday for the improvement of the water plant totals $150,000 which has been voted for the water system in this city in the past five years. At the time the present plant was taken over to city ownership, $100,000 was voted by the citizens for that purpose.

The matter of selling the bonds, and active work on the improvement of the water system will be taken up at the meeting of the City Council next Tuesday night. At that time E. E. Harper of Kansas City, the engineer who designed the improvements to be made on the plant, will make a report and will suggest the first steps that should be taken in the plan of improvement.

My dear Mrs. Dunn:

I wish to express my smypathy on account of the death of Private Alvin Dunn, Company "I", 353d Infantry I feel that you must find a certain pride to his soldier death and in the knowledge that he fought his good fight in the just cause of our country. The triumph of that cause justifies his death, though it cannot assuage your grief.

It is distressing to lose one who is near and dear, but it may be some comfort to know that his services were valued by his commander and that he did well his part in the Great War.

Reports on Game Birds and Animals.

To gather up-to-date and reliable information on the present condition of game birds and animals in the Western States, as compared with previous years, the United States Department of Agriculture, through its Bureau of Biological Survey, has sent blanks to thousands of hunters, and has asked that they be filled out with as complete and definite information as possible. Recently 1,000 of these blanks were sent to a selected list of hunters in all counties of Washington state. The information which will be obtained from the replies, together with that supplied by the field representatives of the bureau, will give reliable information on the game-bird and animal population of that state. The bureau has already issued reports regarding mammals and birds, including the game species, of Wyoming, New Mexico and Colorado. Information for reports is now being collected for the states of Montana, Arizona, Wisconsin and Washington.

LAY WOUNDED AT VERDUN 13 HOURS

C. A. KINDER HOME ON 15 DAYS' SICK LEAVE

WAS GASSED AT ARGONNE

In Famous 1st Regulars—First Nodaway Boy Wounded—22 Months in France.

Another one of Maryville's heroes arrived in town today in the person of Pvt. C. A. Kinder, Co., I Ammunition Train, First Regular Army Division, from Camp Merrit, N. J.

Pvt. Kinder has the distinction of being one of the firt boys in Maryville to enlist in the army, joining the colors April 6, 1917, the day of the declaration of the war. So far as is known he is the first home boy to be wounded in action, receiving a severe shrapnel wound in te head on April 3, 1918 at the Verdun sector. When wounded at that time he lay on the battlefield from 8 o'clock in the evening until 9 o'clock the next morning before assistance came when he was removed to a hospital back of the lines where he was treated for three months before he was able again to go back into the line of battle.

Three days before the Armistice was signed in the battle of the Argonne Pvt. Kinder was severely gassed from which he has not yet recovered, being on a fifteen day sick leave from his post at Camp Merritt at the present time.

Kinder went into the battle line for the first time November 16, 1917 with the First Regular Army Division which is creited with being among the very first American army units to engage in battle with the Huns. The record of the veterans of the First Regulars is one of the most notable and inspiring of any army division which fought on the battlefields of France. It bore the brunt of attack in many engagements and suffered heavy casualties.

Twenty-two months duty overseas is Kinder's record and nearly wenty-eight month's service in the regular army. He will not receive his discharge from the service until April 6, 1920.

Pvt. Kinder made a statement to the reporter who interviewed him this morning in which he said that as soon as he is discharged from the army he is coming back to Maryville to live and to engage again in his trade of painting and paper hanging and would appreciate all patronage that his many friends will give him. About the first thing he did after stepping off the train here was to purchase a house and lot on South Market St., from J. B. Bookman and he is looking forward longingly to the day when he may return to his home town and settle down again after three years hard service in the army on many battlefields and through many experiences.

Paris, June 27.—President Wilson this afternoon held his last conference with the American newspaper men and told them that he expected the treaty to be signed tomorrow afternoon in time for him to leave Paris tomorrow night for Brest, sailing Sunday. The administration it is learned does not consider that the Fall resolution, declaring a state of war no longer exists between the United States and Germany, in any way meets the expectation of international situation but holds that the war continues so far as the United States is concerned until the senate ratifies the treaty.

SPENT A FORTUNE ON SELF AND WIFE

Before Taking Tanlac Waco Man Couldn't Lift Foot Three Inches From Ground.

"I spent a small fortune on medicines for myself and wife before we got hold of Tanlac, which soon put an end to our troubles," said J. F. Bryan, of 713 South Seventh street, Waco, Tex.

"For six months," he continued, "I was so cirppled up with rheumatism that I couldn't life my left foot three inches from the ground. My arms and shoulders sometimes pained me as if they were being torn with red hot pincers, and the muscles of my left leg felt like they were tied into knots and every time I moved I would almost cry out in pain. My wife, too, suffered terribly with a misery in her stomach for fifteen years and could get no relief, no matter what she did.

"Since taking Tanlac I can get about and do my work as well as I ever could there is not a pain or ache in my body and I simply feel fine all over. My wife took Tanlac at the same time I did, and her troubles are gone and she is gaining in weight and strength every day. We both feel so happy over the benefits we have received from Tanlac that we can hardly stop talking about it."

"Tanlac is sold in Maryville by Koch Pharmacy, in Conception Junction by A. M. Colly, in Pickering by H. M. Lincoln, in Burlington Junction by Carter Pharmacy, in Barnard by Bear Drug Co., in Elmo by King Drug Co., in Clearmont by Dr. W. H. Wiley, in Ravenwood by C. A. Shunk, and in Arkoe by Rufus R. BEGIN WHEAT HARVEST.

Most Fields Promise a Good Yield of Golden Grain.

The harvesting of wheat is underway on a few farms and by the first of next week the binders will be running from early morning until late in the evening.

While the continued wet weather damaged the grain some, most farmers report that they will have a pretty good crop. They say that one noticeable feature this year is the fact that the poorer land has better developed grain than the more fertile.

We hope the farmers get a bumper" yiel. With wheat selling at better than $2 per, it will mean a great deal to them in the way of finances, especially since there is such a large acreage in wheat this year.—Burlington Junction Post.

In Maryville, Mizoo.

In Maryville, old Maryville,
A town in old Miszoo,
Where most the boys went o'er the top
But some turned slackers true.
Some did their bit by plowing corn
Some in the city, too
While some wished they had not been born
Where Old Glory they could view.
Now in this town, there is a class
That have not much to do
They ride around and burn the gas
And obstruct Old Nature's view.
And if by chance a stranger pass
Through the town by night and gas
Or a fine he'll have to pay.
And those that abide in Maryville
And have a car to steer
Sure burn the gas, and the town they fill
With noise, and speed and fear.
Now if they would enforce the law
In regard to speed and noise
Then the people could a full breath draw
With great relief and joy.
There is a law to drive a car
You've got to be sixteen
But in this town, there is no bar
And that fact is plainly seen.
It's safety first, all o'er the land
Why not in Nodaway?
Just place on noise and speed a ban
And give pedestrians the right of way.

—F. Mariano Miller.

J. F. Cook, a grain buyer with headquarters in Maryville ha sleased four lots near the depot restaurant of Mrs. Shiel, and is building an office and putting in scales to buy grain in this locality this summer and fall.—Burlington Junction Post.

Now Is a Good Time To Drive Out Catarrh

The Trouble Is In the Blood.

Summer catarrh, with its nauseous discharge, stuffed up glands, difficult breathing, and summer colds, is bad enough, but the worst of it is yet to come if you neglect to check the growth that is forming to attack you with ten-fold greater power during the winter.

That's why it is so important to treat catarrhs and other blood disorders with S. S. S. during warm weather, and thus free the system from all impurities.

It is now an established fact that catarrh is in the blood and that lotions and salves do not give relief. The experience of others has proven that S. S. S. strikes at the very root of the trouble and eliminates it. Waste no time in this matter, for it is of the utmost importance. Write to our Medical Advisor about your case. Paint is a necessity —not a luxury

After your house needs painting, every year you wait it will require more paint and more labor to put it in good condition. And every year you wait your house is worth less. Good-paint money is good paint insurance. And it's pretty good insurance on the value of your property, too.

The Barnard Band gave a number of selections. The grounds were decorated with flags. The dining table was eighty feet long. After dinner a fine speech was made by Rev. "Wedding Chimes."

"What is there in the vale of life
Half so delightful as a wife;
When friendship, love and peace combine
To stamp the marriage bond divine?"

"Mr. and Mrs. A. J. Cox request the honor of your presence at the marriage of their daughter
Lura Charlotte
to
Dr. Francisco L. Lisbona
Wednesday, June 25, 1919, at high noon."

Such was the invitation that brought together about 50 friends and relatives to witness the marriage ceremony.

The home was beautifully decorated in pink and white. The bride was dressed in white georgette crepe with bead trimming made over white satin, and she never appeared to better advantage. She carried white killarney roses.

Mr. Joseph Sanchez of Kansas City, a half brother of the groom, acted as best man and was accompanied by Miss Hazel Cox, Maryville, Mo., a cousin of the bride who carried pink killarney roses. The wedding march was played by the bride's aunt, Miss Nettie Cox of Maryville, Mo.

The wedding ring cushioned in a rose was carried by the bride's sister, Nannie Beatrice Cox. At the appointed hour the bridal party headed by Elder S. D. Harlan, officiating minister, moved to the parlor where the contracting parties took their places and the solemn vows that made them man and wife were taken.

The love and esteem in which this worthy couple is held was shown by the numerous and beautiful presents.

The bride is the eldest daughter of Mr. and Mrs. Cox. She is a member of the Christian church, a good musician and an accomplished reader. She was born in Nodaway county but some years ago moved with her parents to Maitland where she received her schooling.

Dr. Lisbona is a dentist of the home city but a native of the Philippine Islands. He attended dental college in Kansas City. He is a fine Christian gentleman and has made a success in his profession.

The newly weds will take a two weeks' trip to Kansas City after which they will make their home in Maitland.—Sent in.

WEED PATCH IS FAMOUS, THO' RATHER UNWELCOME.

Pittsburg, June 26.—"Please send me a few suggestions on how to rid my garden of a patch of 'Star of Bethelehem.'" wrote Dr. George W. Ely to the Bureau of Plant Industry in Washington.

"A few suggestions?" said Dr. A. A. Hansen, the Government expert, after a hurried trip here. "We would like a few suggestions ourselves." And then he explained that the "Star of Bethelehem" weed is an exceedingly rare thing and there are only two or three plots of it in the whole country. It is an exceedingly mischievous pest and nothing so far known to man can divorce it from the soil when once it gets a hold.

And Dr. Ely's weed patch, therefore, becomes famous.

CLASS POEM.

Tessie M. Degan.

Our class is very,very smart,
We say it with tranquility,
We pride ourselves most of all
Upon our versatility.

For some of us are musical—
Can sing to you and play,
Will show you their ability
By their parts today.

And some of us are studious,
And some of us are not—
Some of us are changeable,
And some of us are "sot."

We know that four of us can teach—
They did in Demonstration School,
And even under supervision
Kept very sweet and cool.

Now some of us are pretty,
And some are merely gay,
While some of us are noted
By the things we say.

And so we are writing up our poem
'Twas a responsibility
To show this class in all its sheen
Of wondrous versatility.

No single kind of rhyme or verse
Was half enough suggestive;
No theme developed as a whole
Could be enough expressive.

So we have chosen many kinds
Of verses as a symbol
Of all our wits and crafts and skill
And artistry so nimble.

You'll find herein a verse that rhymes
We meant to write it so.
Did not Will Shakespeare use prose too
Sometimes, to make the action go?

The subjects that we write about
Happened all this year,
This is the history of the smartest class
That ever studied here.

Now you can't please all and everyone
—Of that we are quite certain.
But laugh a little now and then,
Or else our feelings will be hurtin.'

Lice Increase Cost of Making Pork.

Lice add a cent a pound to the cost of producing pork. This has been found in tests just completed at the experiment farm of the United States Department of Agriculture at Beltsville, Md. Twenty-four lousy hogs were secured and divided into two lots as nearly equal as to quality of animals as possible. The two lots were managed and fed the same way with the exception that one lot was treated to prevent lice. The animals were weighed at regular intervals and at the end of the fattening period it was found that the hogs infested with lice cost a cent a pound more to fatten than those which were free of the troublesome pest. The officials of the department who had charge of this experiment give an interesting side light in connection with securing the lousy animals. They communicated with some of the department's field men, asking them to locate lousy hogs. It was some time before a reply was received to this surprising order. After the lousy hogs were purchased the owner learned why, and he immediately built a dipping vat and began to treat the animals to prevent lice.

WILL NOT RESTORE CAPITAL PUNISHMENT

Governor Gardner Will Take No Action on matter at Extra Session of Legislature.

St. Louis, June 27.—Arthur Stoehr, president of the Tenth Ward Improvement Association here has received a letter from Governor Gardner, in which the governor declined to consider the restoration of capital punishment at the extra session of the legislature called for July 2 to ratify the federal suffrage amendment.

The Tenth Ward Improvement Association demanded the restoration of the death penalty in a resolution adopted Sunday, June 15. Stoehr wired the governor urging a supplementary call to include a capital punishment.

The governor's letter says in part:

"The last legislature considered capital punishment and refused to restore it. If it should be brought up before the same body again it may take the same action. It would also mean that they would be here for an indefinite period.

"One member of the legislature has already submitted to me the information contained on the inclosed memorandum to show how he feels about it."

The information referred to, it is learned, was collect by Representative Whitaker of Hickory county, and author of the anti-hanging law the repeal of which is now sought.

HAVE BEEN AT IT FOR FORTY YEARS

The following copied from the Nodaway Democrat of Thursday's June 26, 1879, issue tells of fighting in Mexico forty years ago in the days of Diaz. The article comments on the experience of the revolutionary leader. The question arises have they ever quit fighting the government in Mexico?

"General Negrete, the leader of the revolutionary movement against Diaz, has had some experience in the business he has taken in hand. From 1861 to 1861 to 1867 he was one of the most efficient supporters of Juarez. In the latter years he conspired against the president but was unsuccessful. He was amnestied by Ledro in 1872, and afterward helped to drive Ledro out of the country. He is now in the field against Diaz, and it is said he will have the co-operation of Generals Trevino and Navanjo."

URGE SERVICE MEN TO KEEP UP INSURANCE.

St. Louis, June 27.—Soldiers, Sailors and marines are urged to keep up their insurance.

"The newspapers of the country have been the most potent factor in the success of government insurance for men in the service," according to J. K. Voshell, president of the National Association of Life Underwriters, who spoke before the Life Underwriters of St. Louis here.

"No private company," Voshell says, tablished by the government to take care of the men who fought her battles."

FAIR BATHERS MAY NOW WEAR THE KELLERMANS.

Wrightsville, Ga., June 27.—Less attention will be paid to the fair bathers here this season by members of the beach board of aldermen. Hose will not be regarded as requisite to a compiete bathing costume and their absence will not be frowned upon by the governing authorities. Annette Kellermans will likely be the rage and extreme cuts will have to be made before cognizance is taken by the authorities. The consensus of official opinion is that Wrightsville got a lot of ridiculous advertising last year by its prudish rules.

TOWN JAILS BEING SOLD.

Altamont, Mo., June 27.—This little town, several years ago, in anticipation of national prohibition, turned its calaboose into a cow stable. Now reports are coming in here that towns nearby are selling their town jails. The city dads here sit back and laugh at their neighbors, who several years ago laughed at Altamont.

GOVERNMENT BUYS SCOTT FIELD.

St. Louis, June 27.—The government has purchased Scott Field, Bellville, Ill., which has been an aviation camp since the United States entered the war. The formal transfer of the ground to the government was made when Lieut. Holland M. Cassidy of the aero service, paid the owners $119,283.

TWO SETS OF TRIPLETS IN LESS THAN TWO YEARS.

Leisenring, Pa., June 27.—Mr. and Mrs. Joseph Senyak, married less than two years, have six children—two sets of triplets. The combinations in both cases were the same, two boys and one girl. Of the last set, the boys each weighed five pounds and the girl five and a half pounds.

An Iceless Cooler for Porkers.

Put the hogs in the "cooler" during the hot days—not as punishment, but to keep the heat from reducing daily gains in pork.

Home demonstration agents of the United State Department of Agriculture and the state colleges have been demonstrating the iceless refrigerator, and these handy coolers are becoming very popular. The swine-extension man in Mississippi, who is working in co-operation with the Federal department, is planning to put into practice the same principle used in the iceless refrigerator to keep hogs cool in summer. The iceless refrigerator is made by inclosing a frame in canton flannel, burlap, or duck. A pan of water is placed on top and wicks are extended from the water over the side of the pan and down the sides of the frame. The evaporation of the moisture in the wicks keeps the refrigerator cool. In applying this principle in the hog lot a frame will be built to provide shade for the hogs and large burlap wicks will extend down the sides from containers which are placed on top and are filled with water. It is expected that the evaporation of the water will keep the hogs cool and thus enable them to make more economical gains during the summer months.
